## LEAD-LINED GYPSUM BOARD - 48" LEAD WIDTH WITH 2" STRIPS

Pure Lead Products lead-lined gypsum board is furnished in 1/2", 5/8" and 3/4" fire code (Type X-Ray Shielded Gypsum) gypsum board meeting classification ASTM C 1396 with pure lead sheet meeting federal specification QQ-L-201 F and ASTM B 7 49- 03 Standard Specification for Lead and Lead Alloy Sheet, Strip and Plate products - see NCRP Reports #33, #39, #45, and #147. The lead-lined drywall is manufactured to make a complete component system. The lead extends over the width of the gypsum board and 2" strips are included to cover the vertical joints between each of the boards. Strips are required at the corners. Shielding accessories for installation include lead discs of the same or greater thickness of the lead lined gypsum board for screw penetrations and sheet lead for backing and shielding cutouts for electrical, plumbing, medical gas, or other penetrations as well as corners. Available in standard thicknesses of 1/64", 1/32", 3/64", 1/16", 5/64", 3/32" and 1/8" in standard heights of 7' and 8'. Custom thicknesses and heights are available upon request. Lead thickness greater than 1/8" should be on lead-lined plywood.
