

# Pure Lead Products

A Division of Heartland Metals, Inc

MANUFACTURER

*"Since 1935"*

**MADE IN FLORIDA /USA**

## **Lead Lined Plywood**

Pure Lead Products lead lined plywood is furnished in ½", 5/8", ¾" and 1" Fire Resistant plywood with pure lead sheet meeting Federal Specification QQ-L-201F and ASTM B 749-03 Standard Specification for Lead and Lead Alloy Sheet, Strip and Plate products.

The plywood meets the Underwriters Laboratories, Inc (UL) ASTM E 84 test and each pieces bears the UL classified mark indicating the extended 30 minute test. Flame spread rate is 25 or less when tested in accordance with ASTM E 84, "Standard Test Method for Surface Burning Characteristics of Building Materials".

Lead lined plywood is furnished in 4'x8' sheets or can be configured to specifications required. All Penetrations int the lead lined area should be lined with lead of the same thickness as the lead used to prevent radiation leakage.

Lead thickness greater than 1/8" should be on lead lined plywood.
